

## CITY TOURISM APP

### SOLUTION DESCRIPTION

Mobile applications representing City to a local and foreign tourists. This is the guide in your telephone which indicates places of interest, accommodation and catering facilities as well as main events in Kaunas city. Easy information supply lets you quickly find the one you are interested in. Installed audio guide function enables a sound record, which offers broader description of places to visit in Kaunas free of charge. The function of the map is most handy which allows not only browsing the map but also define your location and the objects nearby. Application functions without internet, so be sure, that expenses for internet won't bother you. All objects are displayed on interactive OpenStreetMap.

Information in the app can be constantly updated by Tourism Information Center. App was built for two platforms – Android and iOS.

### BENEFITS

- Audio guide.
- Integrated offline map.
- Can be preloaded in advance - no data roaming required.
- Can be updated by public authority
- Search function
- Android and iOS
