

BILLING SOLUTION FOR HEATING AND UTILITY COMPANIES

SOLUTION DESCRIPTION

The billing system is designed to calculate and flexibly allocate diverse services for residents of multi-apartments buildings. Workflows that have been implemented in Billing solution make it easy to ensure timely and accurate step-by-step execution of whole process cycle from data collection to invoicing and to debt-collection. Solution covers whole service cycle of utility company: service management, payments management, debt management, clients servicing and asset management.

BENEFITS

- Architecture solutions double or triple system throughput compared to other similar systems;
- Checks of additional integration and data entry logic as well as data accuracy tests reduce the chance of human error up to 30%;
- The friendly and convenience interface increases user satisfaction significantly;
- The flexible role based system ensures a high level of security;
- Saves time and effort managing debts;
- Ability to submit and receive information from the State Tax Inspectorate, municipalities and bank information systems faster and without duplicating efforts.

ABOUT COMPANY

The key to competence is deep specialisation, and deep specialisation is usually narrow. But today's business challenges demand complex, all-embracing solutions. How can this conflict be resolved? Blue Bridge Group combines the different IT competencies within a single corporate family. Each company in the group develops specialised competencies in great depth and subtlety, creating its own highly professional IT profile.
