

E-SERVICES PORTAL AND DATA ANALYTICS SYSTEM

SOLUTION DESCRIPTION

The National Commission for Energy Control and Prices is the authority regulating the activity of the entities operating in the fields of energy, drinking water supply and waste water treatment and performing the state supervision of the energy sector. The system helps the Commission collect economical and technical data of regulated entities, market information and plan pricing changes. The system allows automate data collection, analysis, planning and reporting processes, what previously was mostly manual work.

BENEFITS

- Automated, centralised and unified data collection;
- Automates workflows, processes and error handling;
- Report from energy and utility companies using comfortable e-forms and workflows;
- Adaptive user interface design;
- Flexible data analysis and reporting, KPI's;
- e-Signature integration.

ABOUT COMPANY

The key to competence is deep specialisation, and deep specialisation is usually narrow. But today's business challenges demand complex, all-embracing solutions. How can this conflict be resolved? Blue Bridge Group combines the different IT competencies within a single corporate family. Each company in the group develops specialised competencies in great depth and subtlety, creating its own highly professional IT profile.
