

## PATIENTS E-SERVICES PORTAL

### SOLUTION DESCRIPTION

E-service portal comprises 4 external electronic services with functionality that also handles the internal management of documents.

Every patient has a personal page on the portal where all the information related to the patient is collected and managed. It's possible to register to see a doctor, view your medical history, and submit and receive documents electronically. There's also functionality for patient representation, reminders about needed appointments, relevant educational materials, self-tests or questionnaires, remote patients monitoring condition.

### BENEFITS

- System and portal is user-friendly and intuitive;
- Administrators' and doctors' work is already easier and more efficient;
- Saving money on paper;
- Confidentiality of documents is being safeguarded and employees are being acquainted with internal regulations more quickly and easily;
- Patients education, health wikipedia, self-tests and self-assessment;
- Remote monitoring of a patient's condition.

### ABOUT COMPANY

The key to competence is deep specialisation, and deep specialisation is usually narrow. But today's business challenges demand complex, all-embracing solutions. How can this conflict be resolved? Blue Bridge Group combines the different IT competencies within a single corporate family. Each company in the group develops specialised competencies in great depth and subtlety, creating its own highly professional IT profile.
