

RAILWAYS FREIGHT IS AND E-SERVICE PORTAL

SOLUTION DESCRIPTION

A PLATFORM COVERING THE ENTIRE RAILWAYS FREIGHT CYCLE. Freight IS is the central system of the Lithuanian Railways Freight Transportation Directorate and includes more than 15 interconnected modules which automate various processes, from the placement of an order for freight transportation to the tracking of customer payments and freight location. E-service portal gives Lithuanian Railways customers the ability to coordinate their transport plans, order freight cars, fill out waybills, prepare customs declarations, coordinate various documents.

BENEFITS

- Used daily by more than 1,500 internal users at Lithuanian Railways;
- More than 2,500 partners and customers use the functions of the e-service portal;
- Reduced costs for employee time;
- Sped up the processing of shipping documents;
- Faster and easier to find needed information;
- Accelerated customs clearance and border crossings;
- Freight gets to its ultimate destination faster.

ABOUT COMPANY

The key to competence is deep specialisation, and deep specialisation is usually narrow. But today's business challenges demand complex, all-embracing solutions. How can this conflict be resolved? Blue Bridge Group combines the different IT competencies within a single corporate family. Each company in the group develops specialised competencies in great depth and subtlety, creating its own highly professional IT profile.
