A Hub for Innovation

SMARTSPHERE™ HOSPITALITY

SOLUTION DESCRIPTION

Hospitality gives us control of the key elements of a hotel with direct interfaces to the hotel management and Maintenance Systems. Our foundation is the Iamus SmartNode with optimised LED lamps; video analytics and a management systems that allows Smart Building technologies to create adaptive ambience (Energy safety), optimization services (Working together with robotic), mobile application with loyalty, systems and bundling services.

BENEFITS

- Implement smart building technologies to create adaptive ambience
- SmartNodes detect people and objects, analyses the relevant information and sends pre-processed data to the management console.
- By implementing robotics, one can compensate the shortage of staff
- Providing a multifunctional mobile application to the customer that will allow easy check in/out and access to the hotel facilities, while helping him find his way around.
- Enable the maintenance staff to access all relevant levels of equipment. Alerts and exceptions in real-time.
