IAMUS SERVICE DELIVERY FRAMEWORK (SDF)

SOLUTION DESCRIPTION

The Iamus SmartNode connects to the Iamus Service Delivery Framework, a robust and secure, highly scalable cloud-based software platform. The Framework collects, stores, analyses and automates based on information from the Iamus SmartNode and other sources.

Software Development Kit (SDK) will give you complete programmatic access to the features Service Delivery Framework (SDF) of the SmartNodes.

The Iamus SDK allows you or third-party developers to build custom applications or even to create your own SmartSpheres.

BENEFITS

- Asset Management.
- Device management (including support of the wide range of industry standard protocols).
- Application management including remote management.
- Data handling (capture, route, transform/convert).
- Analysis.
- Security.
