

MUNICIPAL TAX MANAGEMENT

SOLUTION DESCRIPTION

eTAX is an information system specially designed and developed for accounting of municipal taxes (real estate rental, etc.), charges (for pet ownership and registration), permits (construction, external advertising posts, arranging mass public events, training, etc.), licensing (for the retail sale of alcoholic beverages, tobacco products, bulk petroleum products, transportation of passengers, etc.) records. eTAX includes all needed processes from managing taxpayers and objects of taxation to tax calculation and payment management. The system's integrated self-service module facilitates municipalities and resident's fast and easy access to online services.

BENEFITS

- Convenience:
 - o Available through internet (SaaS);
 - o All municipal taxes, charges are recorded in one system;
 - o Uploads from the different registers;
- Cost and time saving:
 - o Speeded up the data entry and search;
 - o Automatically generated reports;
- Risk reduction:
 - o Error control.
